

Alex Hirota

Professional Summary

Software and Web Developer with 7 years of web and software development experience. Known to be adaptable and resourceful with the ability to self start and learn code bases quickly without handholding. With strong communication skills and respectful demeanor, I am seeking a position where I can utilize my skills to tackle problems quickly and efficiently, improve workflow, and lighten the load of my fellow collaborators.

Work Experience

Williams Sonoma, Inc. - Contractor

SENIOR FRONT END DEVELOPER — JUNE 2022 - AUGUST 2025

Served as Front End Developer for Pottery Barn Teen brand under Williams-Sonoma, Inc. Responsibilities include:

- Coordination with cross functional teams for bi-weekly deployments to production
- Build responsive web interfaces with HTML, CSS, and Vue.js from Figma and Photoshop files
- Update and deploy internal Design System with direction from Creative Design team
- Implement interim Shopify Site for Dormify brand after acquisition by Williams-Sonoma, Inc.
- Maintain clean code-base through Github and tracking issues with JIRA/Task boards
- Create internal user documentation and serve as liaison between non-technical and technical teams

Preapp Co., Ltd.

LEAD SOFTWARE ENGINEER — JULY 2020 - DECEMBER 2021

Expanded role with leadership opportunities. Role responsibilities and highlights include:

- Develop Virtual Office Application with Firebase/Vue.js to facilitate hybrid/remote work during pandemic
- Develop application with Laravel/Python/MySQL to connect multiple E-Commerce APIs to Netsuite ERP
- Extend Netsuite ERP functionality with Suitescript to automate laborious business tasks
- Develop inventory application implementing APIs to synchronize inventory across 8 e-commerce platforms.
- Develop and deploy Shopify Sites to support new localized Japanese businesses.
- Managed team of three interns to build and test additional features to existing SaaS Platforms

SOFTWARE ENGINEER — JULY 2017 - JUNE 2020

Served as Software Engineer for a small E-Commerce company in Japan. Role responsibilities and highlights include:

- Extend SaaS web crawler application with Laravel, Python, MySQL to aggregate E-Commerce Ranking Data
- Troubleshoot, document, and resolve bugs in production code
- Deploy Wordpress CMS installations as both standalone sites and sub-systems internal to Sales Platforms
- Refactor existing Web Pages to meet SEO standards and expand outreach
- Relaunched Tangleteezer JP e-commerce website responsible for 30% of product sales since renewal launch.
